

In the creative area the children love to use recycled items for a purpose! For example, to make a robot they would use:

- A large box for the body
- Milk lids for the eyes
- Corks for the ears
- Yoghurt pots for the legs

To help your child get creative we would really appreciate it if you could collect the following items for us at home regularly. Please try and bring the items in on a Friday in a plastic bag so we can restock the areas for the following week!

- Kitchen rolls/toilet rolls
- Bottle lids
- Plastic bottles – different sizes
- Cardboard boxes – different sizes
- Corks
- Yoghurt pots
- Different textured materials e.g. foil, fabric, lace etc
- Newspapers/ Magazines
- Egg boxes

Thank you for your help
