CORONAVIRUS UPDATE MARCH 2020

This information is not to cause alarm or uncontrolled emotion, but we all need to be responsible and prepared: parents, children and staff.

Government guidance-to-educational-settings-about-covid-19

Looking after staff and children.

Teachers will spend time this week reminding children of the importance of hand washing and hygiene, using materials published within the email from the Government.

Within each classroom there is sanitizer for both children and staff to use, there is also soap and hot water in the toilet areas.

It would help if you could ensure that children and adults must wash their hands:

- before leaving home
- on arrival at school
- after using the toilet
- after breaks and sporting activities
- before food preparation
- before eating any food, including snacks
- before leaving school

Teaching the children

Sections 15 of the Government guidance gives some really good advice to children and lesson plans.

<https://www.gov.uk/government/publications/guidance-to-educational-settings-about-covid-19/guidance-to-educational-settings-about-covid-19>

Please discover more with your children at home by looking at this information.

I've asked staff to use these plans and posters in class with children. These can be found under section 15 of the above link.

Again, this information is not to cause alarm or uncontrolled emotion, but we all need to be responsible and prepared: parents, children and staff.

Regards,

D Baxter
Headteacher
