19. Build a crazy/mini-golf course

Find a small ball, something to hit it with (preferably a golf club), and things to act as holes (cut up Pringles cans are good or use the small bowls that come with some desserts). Now build your own 9 or 18-hole crazy golf course - use stuff you find around the house.

Tip: If you have dominoes or many books of the same size you can alternatively make a domino run.
