

I SPY WITH MY LITTLE EYE...

A SEAHORSE

Name:

Age:

Favourite sea creature:

Label a seahorse!

Labels:

- Dorsal Fin
- Tail
- Snout
- Seagrass
- Brood pouch (males only!)
- Gills

True or False?!

- Seahorses are a type of fish. **True / False**
- They can move their eyes independently. **True / False**
- Their favourite food is seagrass. **True / False**
- Seahorses are the fastest animal in the sea! **True / False**
- The male seahorse gives birth to the babies. **True / False**

Draw a seahorse!

What's its name?

**Write an acrostic
seahorse poem!**

**S
E

spotlight, colouring sheets and YouTube
videos to learn more!**

PROJECT SEAGRASS

**I SPY WITH MY LITTLE
EYE...**

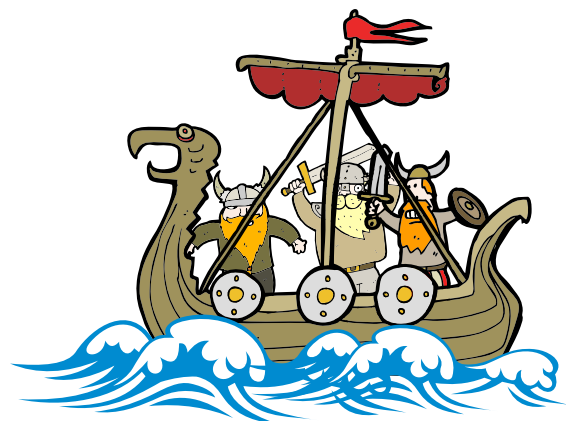

A COD

Name:

Age:

Favourite seafood snack:

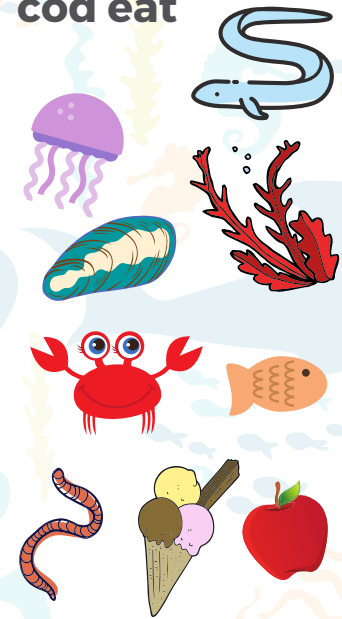

Cod has been sold and traded across the world since the Vikings, over 1000 years ago! **Can you write a short story about a Viking selling cod across the seas?**

True or False?!

- Cod have five eyes. **True / False**
- Lots of wars have been fought over cod. **True / False**
- They like cold seawater. **True / False**
- Cod have whiskers called barbels to help them find food. **True / False**
- Baby cod are bright purple. **True / False**

Circle all that cod eat

Fish and chips is the UK's favourite and often use cod. What would be in your favourite fishy dinner?

Ingredients:

Method:

Draw it!

I SPY WITH MY LITTLE EYE...

A CUTTLEFISH

Name:

Age:

Favourite fancy dress:

Label a cuttlefish!

Labels:

- Arms
- Head
- Fin
- Tentacles
- Body

Cuttlefish in numbers!

- How many arms does a cuttlefish have?
- How many tentacles does a cuttlefish have?
- How many eyes does a cuttlefish have?
- How many hearts does a cuttlefish have?
- How many brains does a cuttlefish have?

Cuttlefish lay eggs in seagrass called seagrapes. **Add some to this seagrass!**

How many seagrapes are in your picture?

Write an acrostic cuttlefish poem!

Cuttlefish are masters of disguise. They can change the colour of their skin and it's texture in less than a second meaning they can hide anywhere. **Can you draw a cuttlefish in disguise?**

Check out Project Seagrass' cuttlefish spotlight, colouring sheets and YouTube videos to learn more!

PROJECT SEAGRASS

I SPY WITH MY LITTLE EYE...

AN ANEMONE

Name:

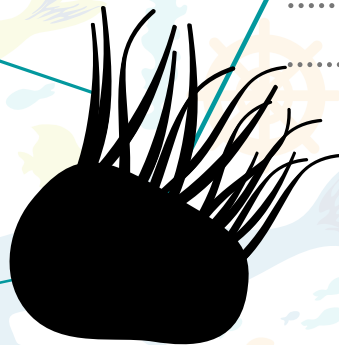

Age:

Favourite colour:

Label an anemone!

Labels:

- Mouth AND bottom
- Tentacles
- Pedal disk

List three anemone super powers:

1)

2)

3)

If **one** anemone can split in half to make **two anemones**, both anemones split in half again and then all of them split in half again, **how many anemonies do we now have?!**

Make your own 3D anemone!

Maybe use an old loo roll as the body and then lots of string dangling off as tentacles. Anemones come in lots of different colours so make it as **bright** as possible. Project Seagrass would love to see a picture and know its name!

Anemones like to live anywhere from rock pools and seagrass meadows down to the deep ocean. **Can you draw some anemonies and their home?**

Check out Project Seagrass' anemone spotlight, colouring sheets and YouTube videos to learn more!

PROJECT SEAGRASS

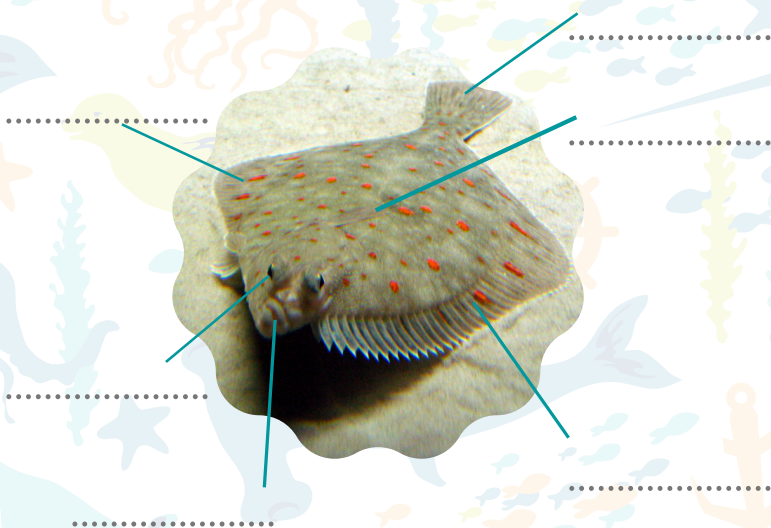

I SPY WITH MY LITTLE EYE... A PLAICE

Name:

Age:

Favourite beach:

Label a Plaice!

Labels:

- Eyes (on the same side!)
- Pectoral fin
- Dorsal fin
- Anal fin
- Tail
- Mouth

True or False?!

- Plaice can change colour. **True / False**
- They like to eat seaweed. **True / False**
- Plaice eyes move around to be on one side of their head. **True / False**
- When cold, plaice roll themselves up like a pancake to keep warm. **True / False**
- The oldest plaice recorded was about 50 years old. **True / False**

Write a plaice acrostic poem!

**P
L
A
I
C
E**

Make your own 3D plaice!

Using old junk or things from the garden- a big leaf might be the body, some buttons for eyes, perhaps feathers for fins.

Grab yourself an adult to help you with any cutting or sticking!

Draw a buffet with things plaice love to eat!

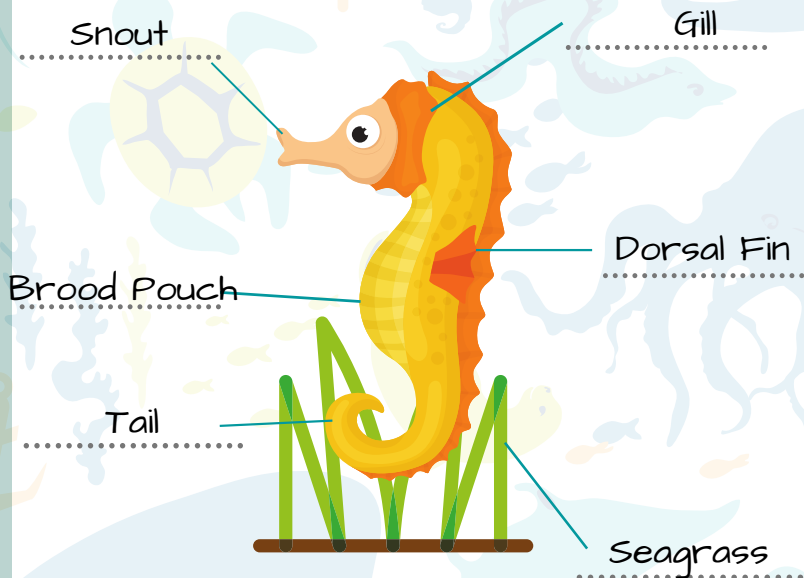

Check out Project Seagrass' plaice spotlight, colouring sheets and YouTube videos to learn more!

PROJECT SEAGRASS

SEAHORSE ANSWERS

Label a seahorse!

True or False?!

- Seahorses are a type of fish. **True**
- They can move their eyes independently. **True**
- Their favourite food is seagrass. **False**
- Seahorses are the fastest animal in the sea! **False**
- The male seahorse gives birth to the babies. **True**

COD ANSWERS

True or False?!

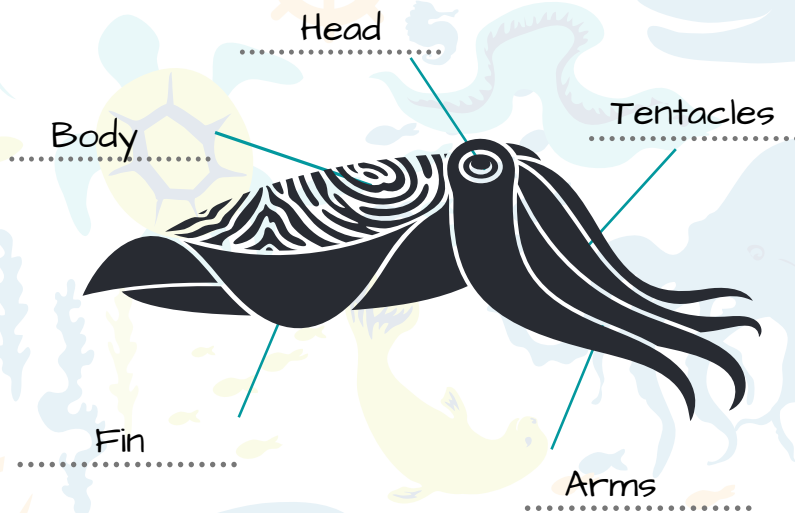

- Cod have five eyes. **True / False**
- Lots of wars have been fought over cod. **True / False**
- They like cold seawater. **True / False**
- Cod have whiskers called barbels to help them find food. **True / False**
- Baby cod are bright purple. **True / False**

Circle all that cod eat

CUTTLEFISH ANSWERS

Label a cuttlefish!

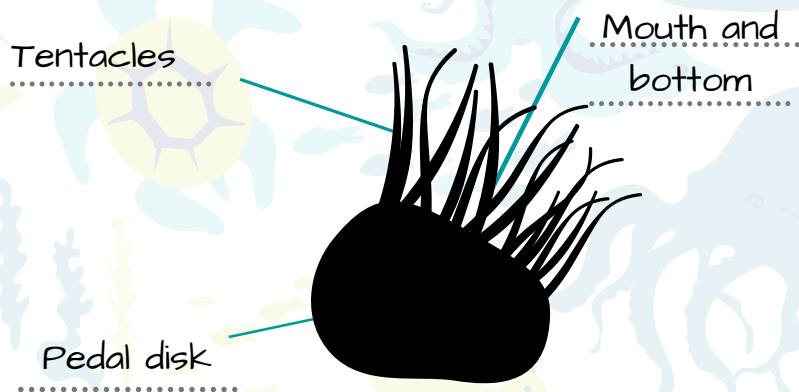

True or False?!

- How many arms does a cuttlefish have? 8
- How many tentacles does a cuttlefish have? 2
- How many eyes does a cuttlefish have? 2
- How many hearts does a cuttlefish have? 3
- How many brains does a cuttlefish have? 1

ANEMONE ANSWERS

Label an anemone!

If **one** anemone can split in half to make **two** anemones, both anemones split in half again and then all of them split in half again, **how many anemonies do we now have?!**

8 anemonies

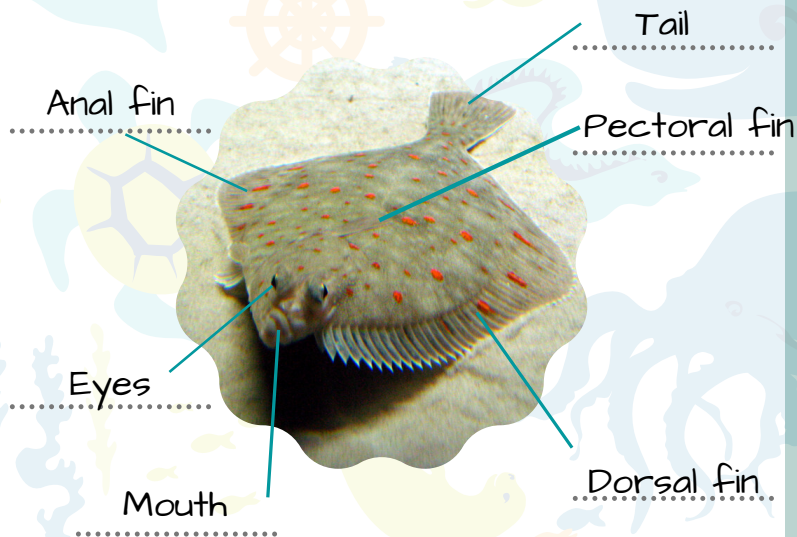

List three anemone super powers:

- They can sting their prey.
- They can clone themselves by splitting in half, meaning they could potentially live forever.
- They live with no brain!
- They can eat, poo and have babies out of the same body part.
- They can pull all of their tentacles inside themselves (can you do that with your arms and legs?).

PLAICE

ANSWERS

Label a Plaice!

A plaice buffet would include things like shellfish, worms, snails, crabs and shrimp! Yum!

True or False?!

- Plaice can change colour. **True**
- They like to eat seaweed. **False**
- Plaice eyes move around to be on one side of their head. **True**
- When cold, plaice roll themselves up like a pancake to keep warm. **False**
- The oldest plaice recorded was about 50 years old. **True**
