We have done a
good job of social
distancing and
staying at home.

Less people are
getting sick with the
Corona virus.

Some places will
start to re-open
gradually.

Schools are re-
opening soon!

Not everyone will
be returning to
school right away.

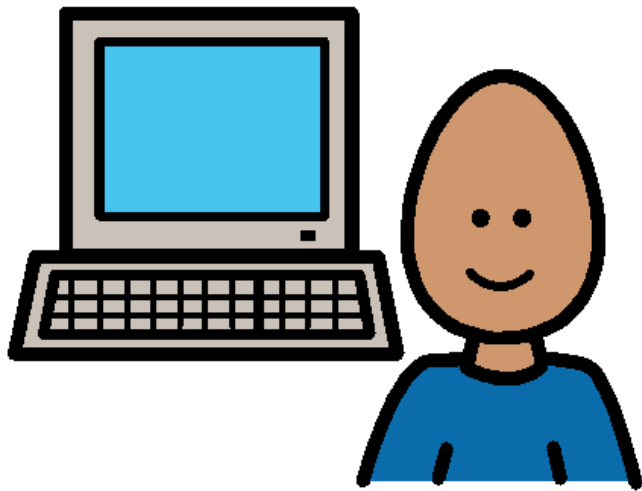

Some teachers will
stay at home.

Some students will
stay at home.

Learning will take
place at school
and online.

My parents have
decided that I
should stay at
home for now.

My parents make
the big decisions for
our family.

I can ask my
parents why they
feel I need to stay
at home.

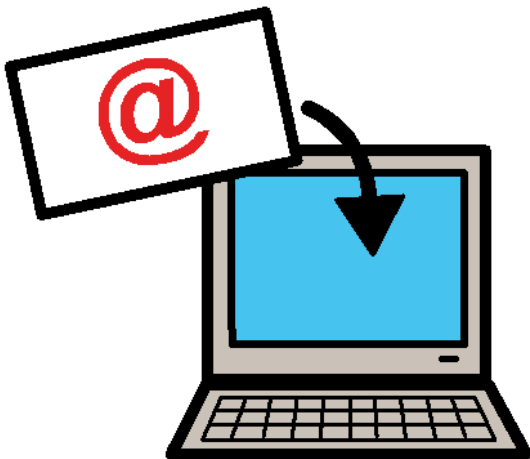

Each family will
make the choice
that is right for
them.

I can keep learning
from my teacher
online.

I can connect with my friends in other ways.

This situation is only temporary. It will not last forever.

I need to be patient and try my best while I am learning at home.

When the time is right, my parents will say that I can go back to school.

It will be great to
see everyone at
school again!
