

My first piece of homework!

Maths

In Reception, we use many different objects to count with. We love to use natural resources, such as pine cones, conkers etc. Please practise using the resources at your house to practise counting objects, e.g. fruit, coins, toys etc. We will be starting our mathematical journey using 'Numberblocks' episodes. You can find these on YouTube. Please watch an episode with your child to familiarise them with the characters.

Literacy

Please support your child with practising their name over the holidays. You could bring this into school on the first day and we can use their writing as their first name label in the classroom.

Topic

Our first topic will be Super Me, Super You. We will be talking about how we are super and other super people that could help us. Please support your child to draw a picture of themselves with their super family! Please ask your child information about themselves and scribe this for your child.

You could ask them about their eye colour, hair colour, age, when their birthday is, who is in their family, what they would like to be when they're older, their favourite story, favourite food, favourite toy, their friends. This can be presented however you would like, e.g. as a poster, in a scrap book etc.

To be returned on your first day in Reception!
