

# Saltaire

By Emily O'Brien

## *Canal*

The canal is very important as it is the home to many kinds of ducks and it is used for transporting alpaca wool. It was called the Leeds Liverpool canal

# Mill

The mill is very old it was is for making alpaca wool that was transported to Liverpool and Leeds. (to see more you can go and see it yourself because it still stands and it probably will for a long time)

# Trian station

Titus Salt built a train so his workers could get to and from the mill so they didn't have to Train to Trian or get tired running or walking

# Saltaire united Reform Church

The church is round with  
a curved moon on top.  
They would be forced to  
go to the church to  
worship god or go to see  
family and that was all  
they were aloud to do on  
a Sunday

# Cafeteria

The cafeteria was built so Titus's workers didn't have to worry about packing lunches or fast trips back home. So then his workers could just have lunch with no worry at all.

A photograph of a white sports pavilion with a scoreboard, situated on a grassy field with trees in the background. The pavilion has a dark roof and a prominent scoreboard on the left side. A red car is parked in front of the building. The scene is set against a backdrop of lush green trees under a grey, overcast sky.

# Park

The park was built so his workers kids could have fun while their parents worked hard

# Sir Titus Salt

Titus Salt was famous because he made Saltaire the most wonderful place to visit

# Alpaca statue

The alpaca statue  
was made to  
represent that they  
made alpaca wool

Arms houses  
Sir Titus Salt built  
some houses for  
his retired  
workers to live in  
when his workers  
got to old to work

# Hospital

Titus Salt built a hospital encase any of his workers need medical care

# Street Names

Sir Titus Salt named all the streets after his wife and children

# Did you know?

There is a watch tower on Titus street that was used by someone to make sure no one did washing on a Sunday!!!
