| % achieving ARE in writing                    | 33%                        | 77%                               | 88%                        | 85%                            |  |  |  |
| % achieving ARE in maths                      | 67%                        | 80%                               | 75%                        | 81%                            |  |  |  |

| 3. Barriers to future attainment (for pupils eligible for PP, including high ability)    |   |   |  |  |  |
|--|---|---|--|--|--|
| In-school barriers (issues to be addressed in school, such as poor oral language skills) |   |   |  |  |  |
| A.   | There are gaps in the attainment in KS2 reading and maths between disadvantaged pupils and other  | rs due to inconsistent analysis over-time.  |  |  |  |
| B.   | Lack of planned writing opportunities tailored to the needs of PP chn in KS1. KS2 PP children have not had regular reading opportunities in school. |   |  |  |  |
| C.   | Social, emotional and mental health issues for some pupil premium children are making it difficult  | for them to learn effectively and make progress.  |  |  |  |
| Externa  | al barriers (issues which also require action outside school, such as low attendance rates)   |   |  |  |  |
| D.   | Not all parents are aware of pupil premium funding and how to access this to ensure school can sup  | pport all children who are eligible for funding.  |  |  |  |
| Е.   | Pupil attendance/lateness and home challenges for some of PP children.  |   |  |  |  |
| F.   | Parents opting for holidays in school time.   |   |  |  |  |
| 4. Des   | ired outcomes   |   |  |  |  |
|  | Desired outcomes and how they will be measured  | Success criteria  |  |  |  |
| A.   | Target PP children to achieve ARE in all core subjects. This includes targeting higher attaining pupils (GDS) and pupils working at EXS.            | Attainment in reading and writing will show an upward trend in the data. The different between PP children and non PP children will diminish.   |  |  |  |
| B.   | To improve attendance of identified pupils.   | Absence/lateness % reduced. They take holidays out of school time. They school attendance percentage is consistently above our school target of 96% for all classes and particularly for all PP children. |  |  |  |

|    | Target Pastoral Support Workers to ensure that barriers such as emotional and social barriers are minimised for vulnerable pupils.   | Children will arrive to lesson calm and ready to learn. They will have all the resources listed on passports and will use these to make progress. That children will be able to access learning in all classes. Any SEMH issues are dealt with using a recommended strategy.                      |
|----|--|---|
| D. | Increased take up of pupil premium funding for eligible parents will ensure funding can be directed at children accordingly and hence attainment/progress will develop in line with non PP chn through correct use of funding. | An increase in the amount of pupils in receipt of pupil premium funding particularly in EYFS and KS1. High quality provision demonstrated on the provision maps is continued including support from pastoral support worker/mental health champions. SBM encouraging and supporting applications. |

| 5. Planned expenditure  |  |   |   |   |                                      |
|---|--|---|---|---|--------------------------------------|
| Academic year   | 2019/2020  |   |   |   |                                      |
| The three headings below strategies.  | enable schools to demonstrate how they are using   | g the pupil premium to improve classroo   | om pedagogy, provide targeted   | l support and si  | upport whole school                  |
| i. Quality of teaching f  | or all   |   |   |   |                                      |
| Desired outcome   | Chosen action / approach   | What is the evidence and rationale for this choice?   | How will you ensure it is implemented well?   | Staff lead  | When will you review implementation? |
| Target PP children to achieve ARE in all core subjects. This includes targeting higher attaining pupils (GDS) and pupils working at EXS.  Target: To improve outcomes in writing in both key stage 1 and Key stage 2. | Reading: Develop pupils speaking and listening skills and a wider understanding of language: reading out loud to themselves and peers as well as into microphones or electronic devices, encouraged to have a conversation (seating position, facial expression active listening and appropriate responses), asking and answering questions, paired groups work, speaking and recording voices before writing. Vocabulary, sentence stems.  Social conversation in Nurture Room. Social skills of conversation, 'culture capital', how to hold knife and fork, modelling questions and answers.  Balance of reading strategies that include both decoding based on the model from EEF.  Cover staff to be employed so that monitoring can occur and cross school monitoring can take place by teachers to ensure best practice is employed.  Cover needed to ensure that all children who did not pass phonics screening are followed up and work with Phase 2 leader takes place. | Based on research carried out by the North East Primary Literacy Campaign and Institute of Effective Education 2016.  Sutton Trust 2011 suggests that exceptional Quality First Teaching has the most significant impact on pupils from disadvantaged backgrounds. EEF suggests that wider strategies can have a significant impact on academic progress. Further EEF research paper on vocabulary enrichment suggests that this is the key.  EEF - The Mathematics Mastery programme is a whole-school approach to teaching mathematics that aims to raise attainment for all pupils and close the attainment gap between pupils from low income families and their peers. The programme aims to deepen pupils' conceptual understanding of key mathematical concepts.  Compared to traditional curricula, fewer topics are covered in more depth and greater emphasis is placed on problem solving and on encouraging mathematical thinking. Mathematics Mastery is based on a simple way to teach mathematics originally developed | Maths and English lead teachers will work with SLT to analyse books, report on data (progress and attainment measures), will deliver bespoke training specifically on maths mastery and on reading to nurse that support is targeted.  Training will be delivered and impact monitored by drop ins, observations, book scrutiny, pupil voice and data collection  Identifying the data for each child who is PP. Analyse books. | CM/TH (leading teachers) JH/NH (pastoral support workers) | Three times per year.                |
|   | Release time for maths lead to attend  | originally developed  |   |   |                                      |

Release time for maths lead to attend training which can then be disseminated to all staff. This is to ensure that Maths

| Target PP children to achieve ARE in all core subjects. This includes targeting higher attaining pupils (GDS) and pupils working at EXS.  To improve outcomes in reading in Key Stage 2 | Debating society.  Reading for enjoyment Graphic organisers to ensure that when children interrogate texts they are making links and (in a metacognitive way) understand how their brain is making the connections.  Reading focus on boys reading, led by English Lead.  | our data shows that there is a need to focus on reading for children working at EXS and GDS in both key stage stages. Use of techniques such as graphic organisers and drawing pupils' attention to text features are likely to be particularly useful when reading expository or information texts. (EEF).  EEF suggests that a combined approach is more effective at tacking reading comprehension.   | Working alongside the English Lead. Staff meeting on reading strategies using a graphic organiser approach. | CM            | End of Spring Term<br>2020 and again a final<br>review in July 2020. |
|   | Mastery will be our chosen method for delivering learning.  FIGURE 1: A BALANCED APPROACH TO READING  Reading  Comprehension  Knowledge of the form of the larguage (trooptology) and syntax  Understanding of how context influences meaning (pragmatic and syntax)  To select texts that inspire a motivation for reading  Systematic phonics programme. TAs trained to deliver a consistent message. | by the Singapore Ministry for Education. The Mathematics Mastery model is distinctive in two ways. First, it aims to give pupils a thorough understanding of mathematical concepts, rather than a set of techniques or routines to get to the right answer. Mathematics Mastery shows that problems can be solved in a variety of ways, and ensures that pupils learn in sequence – first by manipulating real objects, then by drawing pictorial representations, and ultimately by using mathematical symbols. Second, Mathematics Mastery uses a 'mastery' approach, in which teachers do not move on until all pupils have acquired a basic understanding of the current topic. Additionally, it is designed so that more able pupils can explore each |   |               |  |
