1<sup>st</sup> February 2022

Dear Parent/Carer

### **Trialling key stage 1 national curriculum mathematics assessment materials**

We are writing to let you know that your child's school has been selected to trial some national curriculum assessment materials for key stage 1. The National Foundation for Educational Research (NFER) is doing this work for the Standards and Testing Agency, which is part of the Department for Education. The materials that will be trialled are for assessing mathematics and this trial plays a critical role in developing tests that accurately measure pupils' attainment and progress.

Schools selected to take part in the trialling of key stage 1 assessments have a statutory responsibility to participate. Further information is available at the link below:  
<https://www.gov.uk/guidance/introduction-of-statutory-participation-in-trialling-of-national-curriculum-tests-from-2016>

Pupils in your child's class will be asked to complete these assessments on a set date during the period 19 – 29 April 2022. They will be given a certificate and a pencil as a thank you for their help.

Pupils' background data, as collected in the autumn school census and confirmed with the school, will be used to inform the analysis of the trial. The privacy notice [https://www.nfer.ac.uk/media/4765/stcu\\_stcv\\_test\\_administration\\_privacy\\_notice.pdf](https://www.nfer.ac.uk/media/4765/stcu_stcv_test_administration_privacy_notice.pdf) sets out how we comply with the requirements of the General Data Protection Regulation (GDPR). **This project is confidential and no school or child will be named in any report of this work.** The aim of this exercise is to trial the test, not the pupils. As these are tests in the development stage, schools will not receive results from these assessments.

If you have any questions about this project, please telephone NFER on 01753 637136 or email us at [STCU@nfer.ac.uk](mailto:STCU@nfer.ac.uk) and we will be happy to answer any queries you might have.

Yours faithfully
