

Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2022 to 2023 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Wycliffe CE Primary
Number of pupils in school	348
Proportion (%) of pupil premium eligible pupils	17.24%
Academic year/years that our current pupil premium strategy plan covers	2021-23
Date this statement was published	31.12.22
Date on which it will be reviewed	31.12.23
Statement authorised by	Denise Baxter
Pupil premium lead	Chris Holdsworth
Governor / Trustee lead	Adam Hutchinson

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£99,720
Recovery premium funding allocation this academic year	£9,425
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year	£109,145
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

Part A: Pupil premium strategy plan

Statement of intent

- At Wycliffe CE Primary School, we believe that every child has only one chance at a good education. We believe that every child should have access to high quality learning, a rich and varied curriculum and enriching opportunities.
- Children in receipt of Pupil Premium Funding face unique barriers to reaching their full potential and at Wycliffe we are determined to provide the support and guidance they need to help them overcome these barriers.
- We believe that all pupils leaving Wycliffe should have the same opportunities, experiences and aspirations as their peers.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Lower attainment and slower rates of progress made by disadvantaged children. <i>Evidence: Disadvantaged children over the course of KS2 make slower progress than their non-disadvantaged peers.</i>
2	Low attendance and persistent absenteeism of disadvantaged children. <i>Evidence: Disadvantaged children have lower rates of attendance than their non-disadvantaged peers.</i>
3	The Communication and Interaction / Social, Emotional and Mental Health needs of a small number of disadvantaged children in affects their readiness to learn and make progress. <i>Evidence: There has been a growing number of referrals to CAMHS for Autism / ADHD assessment in the past two years. SEND Register: 21/60 children are above step 2 on the SEND Register. (14/60 Step 3)</i>
4	Disadvantaged children are less likely to read at home compared to their non-disadvantage peers. <i>Evidence: Disadvantaged children have lower rates of progress and attainment in Reading than their non-disadvantaged peers.</i>

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
<p>Raise the attainment of disadvantaged children to close the gap between them and their non-disadvantaged peers.</p>	<p>Achieve above national average outcomes in Y1 (Summer '23) Phonics Screening Check</p> <p>Achieve above national average outcomes in Y2 (Summer '23) Phonics Screening Check</p> <p>Achieve above national average attainment in Reading and Writing and Maths in Y6 (Summer '23)</p>
<p>To improve the attendance of disadvantaged children.</p>	<p>Disadvantaged pupils will exceed the national average for disadvantaged children and are above the school target of 97%.</p>
<p>Children and families with identified social, emotional and mental health needs are well supported by school staff so their needs are removed or alleviated.</p>	<p>Children will be calmer and enjoy improved readiness to learn, evidenced by a reduced number of suspensions and significant behavioural incidents.</p> <p>Identified families are referred to Early Help for multi-agency support. Inclusion staff, Deputy/SENCO and Head teacher work.</p> <p>Appropriate health referrals are made to CAMHS / SALT.</p>
<p>Disadvantaged children will increase their engagement in Reading at home.</p>	<p>Diagnostic reports from Accelerated Reader will demonstrate increased engagement for disadvantaged children.</p> <p>Internal monitoring will evidence increases in reading at home engagement through monitoring of reading records, pupil discussions and parental consultations.</p>

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £ 40,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Key teaching staff to complete CPD related to SEMH such as Emotional Coaching, Children’s Mental Health First Aid and to work with Local Authority Specialist Teachers. This CPD will be shared via dedicated staff meeting time and peer support.</p> <p>SENCO and Inclusion Staff to provide coaching and support to teaching staff to enable them to become self and peer supporting, leading to sustainable improvements across the school</p> <p>Development of Nurture Provision to offer proactive, reflective and restorative work.</p>	<p>EEF Effective SEL: Effective SEL can lead to learning gains of +4 months over the course of a year. Yet – even though SEL is already a large (and often unrecognised) part of their current job – few teachers receive support on how they can develop these skills in their everyday teaching practice.</p>	<p>3</p>
<p>English and Phonics Lead released to set up and maintain systems for Little Wandle (Phonics) and Accelerated Reader.</p> <p>Staff CPD in Little Wandle and Accelerated Reader to ensure that all staff have sufficient detailed knowledge to</p>	<p>EEF Reading Comprehension: The average impact of reading comprehension strategies is an additional six months’ progress over the course of a year. Successful reading comprehension approaches allow activities to be carefully tailored to pupils’ reading capabilities, and involve activities and texts that provide an effective, but not overwhelming, challenge.</p>	<p>1, 4</p>

deliver and assess children's progress with the systems.	EEF Accelerated Reader: EEF Found that effective use of Accelerated Reader led to at least +3 months progress	
--	--	--

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £ 34,145

Activity	Evidence that supports this approach	Challenge number(s) addressed
Use of PIXL therapy / small groups delivered by support assistants to identified groups	EEF Small group intervention: Small group intervention has an average impact of four months' additional progress over the course of a year. Diagnostic assessment can be used to assess the best way to target support. EEF states that small group support should be considered as part of a school's pupil premium strategy. EEF Making the best use of teaching assistants: Research on TAs delivering targeted interventions in one-to-one or small group settings shows a consistent impact on attainment of approximately three to four additional months' progress (effect size 0.2 – 0.3). Crucially, these positive effects are only observed when TAs work in structured settings with high quality support and training. When TAs are deployed in more informal, unsupported instructional roles, they can impact negatively on pupils' learning outcomes.	1
Staff use Accelerated Reader's diagnostic reports to improve choice of reading books for targeted individuals. Identified children receive targeted support and interventions such as daily reading using Little Wandle's high quality	EEF Reading Comprehension: The average impact of reading comprehension strategies is an additional six months' progress over the course of a year. Successful reading comprehension approaches allow activities to be carefully tailored to pupils' reading capabilities, and involve activities and texts that provide an effective, but not overwhelming, challenge.	1, 4

texts to improve phonological knowledge.		
---	--	--

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 35,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Inclusion staff monitoring and challenging absence</p> <p>Raising the awareness of children’s attendance compared to their peers through regular updates</p> <p>Engaging hard-to-reach parents through individual invitations to school and learning discussions</p> <p>Supporting families through Early Help and other external services</p>	<p>EEF Parental Engagement:</p> <p>Parents play a crucial role in supporting their children’s learning, and levels of parental engagement are consistently associated with better academic outcomes. Evidence from our Teaching and Learning Toolkit suggests that effective parental engagement can lead to learning gains of +3 months over the course of a year.</p>	<p>2</p>
<p>Development of whole school systems to support the SEMH needs of all children including disadvantaged and non-disadvantaged</p> <p>Reinforce SEL skills through whole-school ethos, activities and Collective Worship</p> <p>Establish school-wide norms, expectations and routines that support children’s</p>	<p>EEF SEL Education:</p> <p>Effective SEL can lead to learning gains of +4 months over the course of a year. Yet – even though SEL is already a large (and often unrecognised) part of their current job – few teachers receive support on how they can develop these skills in their everyday teaching practice.</p>	<p>3</p>

Academies Trust**

<p>social and emotional development, such as Wycliffe Walking. Actively engage with parents to reinforce skills in the home environment.</p>		
--	--	--

Total budgeted cost: £ 109,145

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year.

Raise the attainment of disadvantaged children to close the gap between them and their non-disadvantaged peers.

KS2 Attainment 2022

	Disadvantaged	Non-disadvantaged
Reading	42%	73%
Writing	42%	69%
Maths	56%	64%
Combined RWM	17%	56%

KS2 Progress 2022

Progress over KS2	Disadvantaged	Non-disadvantaged
Reading	-3.4	0.8
Writing	-2.7	0.6
Maths	-4.8	-1.2

KS1 Attainment 2022

	Disadvantaged	Non-disadvantaged
Reading	56%	63%
Writing	44%	50%
Maths	89%	70%
Combined RWM	44%	47%

Disadvantaged children will meet national expectations for attendance.

The pastoral team held a number of challenge meetings and offered Early Help support when a child's attendance dropped below school expectations. This led to an improvement in the majority of families offered challenge and support. School supported a small number of families that moved away from the school to secure new school placement. School's average attendance for children with PP was 90.5% which was 1.6% lower than the FFT National Average.

Children and families with identified social, emotional and mental health needs are well supported by school staff so their needs are removed or alleviated.

A number of referrals to Early Help, CAMHS and other health services were made which led to improved long term outcomes for families. School supported a number of children as school routines returned to normal following the end of COVID restrictions.

Disadvantaged children will increase their engagement in Reading at home.

Reading journals have been monitored by class staff to ensure that children and parents are reading at home and recording this in their reading journals.

Academies Trust

Externally provided programmes

Programme	Provider
PiXL	The PiXL Club
Accelerated Reader	Renaissance Learning

Part C

Addition information for Trust Pupil Funding Committee

This section should explain how the three finding streams should be allocated:

- School Led Tutoring Grant – allocated to the National Funding Programme (ring fenced)
- Sports Premium

Detail	Amount	Rationale
School -Led Tutoring Grant (NTP)	£11,340	Used to fund 60% of NTP
Sports Premium (Primary only)	£19,350	
Total budget for this academic year (BDAT Focus)	£30,690	

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding)

Strategy for spending School -Led Tutoring Grant (NTP)

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: **£11,340**

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Use of a qualified teacher to work with identified small groups on forensic interventions.</p> <p>Teacher will deliver forensic interventions identified by teacher and teaching staff.</p>	<p>EEF Targeted Academic Support: Evidence consistently shows the positive impact that targeted academic support can have, including for those pupils who are not making good progress across the spectrum of achievement.</p>	<p>1</p>
