

Our School Improvement Priorities 2025 - 2026

To ensure a range of teaching strategies are used throughout school, to adapt learning, so all can succeed.

Basic skills are a focus to ensure children have the best opportunity to flourish as their journey throughout school continues.

To further ensure high quality teaching of English and Maths through a consistent approach across school.

To develop feedback to children so it effectively pushes learning forward.

To maintain strong communications with families and our community via Class Dojo etc.

To develop our playground space and increase activities available at lunch and break times.

To extend and increase our Nurture Provision.

Positive behaviour is the norm and the expectation from all.

Our PSHE curriculum will increase the focus on successful friendships.

To review our Behaviour policy.

To raise the profile of Protected Characteristics in school through Collective Worship.

Opportunities will grow for children to take part in the Schools Linking Project.

Our curriculum will be supplemented via a timetable of enhancements, with each class receiving a minimum offer of either one visit or visitor each term, including at least one non-local trip during the school year.

All children will visit a range of Places of Worship from different faiths during their time in school.
